

LOWER PRIMARY GAMES 2022

Being first time Parent Volunteers (PVs) for a school event – and with Covid 19 restrictions almost fully lifted - it was exciting to be a part of the Lower Primary School Games Day.

To be in the good company of other new PVs, seasoned teachers, passionate CPC members, and of course, the girls, made our first experience as PVs a memorable one!

We were pleased to see how well organized and coordinated the event ran, and enjoyed how the girls not only bonded with their classmates, but also displayed skills learned during their PE lessons, as well as the importance of sportsmanship.

Some teams had loud and boisterous cheers for their fellow team mates which showed great team spirit!

Coming into this with a “If you don’t do, you will never know” attitude, we enjoyed taking the plunge and being a part of our daughter’s learning experience with these games.

The key highlights for us include demonstrating the games in a fun and amusing way – like how to score a goal and seeing the difference in the girls’ response when missing and scoring - was really brilliant! As tired as we were by the end of the event, we felt fulfilled knowing we helped to make the event ‘shine’ for the girls!

We look forward to volunteer at more events in the future, as it is an eye opening and rewarding experience which helps to build memories of great parent – child bonding during their primary school years – something that will be remembered in the years to come!
