

P3 Life Skills - Making Breakfast

I love helping out in my daughter's class because it gives me an opportunity to get to know her classmates and teachers. Most importantly, my daughter loves it when I am in school with her. It's a special experience we share every year. I have volunteered for Life Skills every year since my daughter was in P1.

IJ girls are so warm and friendly. It is truly a blessing to be able to be part of their learning. This year, the P3s had to make an egg sandwich and a cup of Milo. My daughter is from P3 Ixora; I must say the girls followed our instructions very well and they were able to carry out most parts of the activity independently. Needless to say their favourite part of the experience was eating what they made!
