

P6 Life Skills 2018 – Hamper Wrapping

Participating in the Life Skills Programme gave me the opportunity to get to know my daughter's classmates and experience her learning environment. The pupils were polite and enthusiastic. I was also heartened to see the pupils supporting one another through encouragement and feedback during the hamper wrapping process. At the end of the day, when I had my conversation with my daughter about the event, she was happy to have the opportunity to "share" her mummy with her friends. My presence also affirmed her of my love and commitment to bond with her. I am grateful for this special experience and the CPC team for their warm welcome and strong preparation work which facilitated this special experience.
