

GAME STATION 7 MAGIC BOWLERS

I was fortunate enough once again to be given the opportunity to help out with the Lower Primary Games Day event held on 3rd August 2018. This being my second time was no different to what I had experienced in 2017.

Coordination of the event was well handled and emails sent promptly prior to the actual day. We were asked to meet at Barré Hall Level 2 at around 10:15am.

The CPC members present were well organized and efficient. I was immediately assigned to the Choral Room to help at the Magic Bowlers game station. The PE teacher, Ms Kian, frequently visited the Choral Room to cheer for and encourage the students and to keep pace and time.

My team members including my ICs and the other PVs were cordial, energetic, sporting and enthusiastic. We worked well as a team and were excited to be able to help out in this event. With every class that came into the room, there was excitement amongst the team members and smiles all around as the P1 and P2 students enjoyed themselves playing Magic Bowlers.

The game itself started off with the students having to first dribble one ball and then placing it over a stopper. The second point involved moving on to another ball, picking it up and rolling it underhand through two goal posts (hurdle). The last goal post consisted of a cone which needed to be knocked down with a underhand roll. If they knocked down the cone, they would score 3 points (3 Smiley's) and if they missed, they would score 1 Point (1 Smiley) for participation.

It was a joy to experience the cheering and laughter in the Choral Room. Children were encouraged as well by the PVs to have the fighting and winning spirit in them. The true joy came when a student succeeded in knocking down the cone. We observed the happiness and the **"I DID IT"** was truly rewarding to watch.

A great day of bonding and opportunity never to be missed by any parent.
